DESCRIPTION

A **No Shilly-Shally** application is a software system used for daily planning (activities, meetings, travels, and etc.). The application can be easily customized to track task done or events done and will also encourage you stop procrastinating because this the more tasks done before deadline, the higher the milestone you get. It would not only satisfy the user seeing the list of tasks completed but will also stop them from cramming and avoid unpleasant works.

FEATURES

- ☐ Ranks the order of the task into priority: high, medium, low
- ☐ Add deadlines
- ☐ Done tasks are added to milestone tab
- ☐ Can be updated or deleted any time
